9. Estimated cost of works.....\$150,000
10. Estimated time required to construct works.....10 years
11. Estimated time required to complete the application to beneficial use.....10 years
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.
The purpose of this application is to appropriate water to meet the present and future water needs of the area described in Item 6. The service area encompasses an area which has water quality and quantity problems outside of the service area of Sierra Pacific Power Co. or Trans-Sierra Water Service, Inc. It is extremely difficult to estimate the type and number of units which will be served due to the scope of the project, the final water right to be determined by the amount of water actually placed to beneficial use.

APPROVAL.....OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. A measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water granted herein at any and all times.

No perforations shall be put in the casing until after the well is completed and the log available for study. Perforations shall not start less than 100 feet from the surface unless the log shows a satisfactory confining formation nearer the surface.

The total combined annual duty of water under this permit and permits 28424 thru 28429 shall not exceed 1,095.0 million gallons annually.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed.....5.0.....cubic feet per second, but not to exceed.....1,095.0 million gallons annually.

Actual construction work shall begin on or before.....April 30, 1975

Proof of commencement of work shall be filed before.....May 30, 1975

Work must be prosecuted with reasonable diligence and be completed on or before.....April 30, 1976

Proof of completion of work shall be filed before.....May 30, 1976

Application of water to beneficial use shall be made on or before.....April 30, 1979

Proof of the application of water to beneficial use shall be filed on or before.....May 30, 1979

Map in support of proof of beneficial use shall be filed on or before.....May 30, 1979
